

PSHE at Biddulph High School aims to prepare our students for all aspects of life. This means learning about topics such as road safety, financial management and preparing for the world of work. We also value the teaching of healthy relationships, staying safe online, drugs awareness and respect, ensuring that all of our students are safe and make informed choices.

Each member of staff is an 'expert' in a certain area and students will attend a 30-minute tutorial session once per week on a rotation, ensuring they benefit from the skills of our staff. Please see the PSHE timetable for further details.

In addition to PSHE tutorial sessions, Progress Tutors deliver weekly 'PSHE in The News' in tutor time, which is a shorter PSHE topic based on a current news item. This encourages our students to gain a wider understanding of the world they live in and to debate differing views whilst respecting the views of others.

We also have several enrichment days throughout the academic year where each year group focuses in greater depth on a different topic. For example, in February; Year 9 participate in a Science Discovery Day, Year 10 have a Culture and Multi-Faith day, Year 11 are Target Setting for the future, Year 12 are visiting either a College, University or Apprenticeship and Year 13 are learning Next Step life skills.
