

**Albert Einstein**

"Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world."

Our intent is to be an outstanding Social Science Department. By striving for excellence, every learner will achieve their full potential, being able to reflect and act upon their own personalised learning needs. Our aim is to motivate learners to enjoy and achieve within a positive, purposeful and secure learning environment, developing a genuine enthusiasm for the Social Sciences. Through a range of inclusive, exciting and innovative learning opportunities, learners will become effective communicators, analytical thinkers and effective members of a community, developing the necessary transferable skills to be fully prepared for the world of work.
